

# Crash Course for New Dads DVD

The real experts (veteran dads who are on the job) show dad-to-be how to take care of his growing family: new baby and new mom. Our veterans give the straight story on what to expect when the baby arrives.

Including pregnancy, childbirth and caring for newborns, our collection of dads:

- Share their successes and failures.
- Demonstrate how to change, bathe and feed a baby.
- Open up about the struggles they faced while becoming fathers.
- Help men understand what new moms are going through.

**\$14.95**

Taken from Boot Camp for New Dads classes and interviews with new dads and their families, dads who've been there arm dad-to-be with the information and confidence he needs to become a great father.

*"I'm struck by how calm and competent the veteran dads are with their babies. It makes me feel pretty good about going into this."*

Greg Bishop, with 12 brothers and sisters, and four kids of his own, had changed a lot of diapers when he started Boot Camp for New Dads in 1990. Today, he and more than 300 other Boot Camp coaches conduct workshops in 44 states and the U.S. Navy, Army and Air Force.
